💼 PROFESSIONAL EXPERIENCE

FRAME00 / Dev Protocol

Program Manager   01/2022 – 11/2022
- Led community builders program, handled community partners, and maintain Open Source   Remote
  Projects. Created community program from scratch and and prioritize its impact on the Dev
  Protocol Community. I occasionally manage integration and automation in our projects.

Developer Relations   10/2021 – 01/2022
- Provided technical support, helped integrate our partner software, and built a new Open Source   Remote
  Community specifically for the web3 to collaborate in our Open Source Projects. Handled
  technical documentation repository and social event program.

Developer Relations Intern   07/2021 – 10/2021
- Assisted my senior developer relations manager with the project documentation, event program,   Remote
  community engagement, and wrote a technical blog for the web3 community and open source.

🎓 EDUCATION

Bachelor of Science in Information System   07/2019 – 08/2023
Dr. Filemon C. Aguilar Memorial College Las Piñas - Satellite Campus   Las Piñas City,
                                                                                                       Philippines

Information and Communication Technology   2017 – 2019
AMA Computer College Las Piñas   Las Piñas City,
                                                                                                       Philippines

🧩 VOLUNTEER EXPERIENCE

GitHub Field Expert   01/2022 – present
GitHub
- I belong to the circle of trust of GitHub Education. As GitHub Field Expert, I help select potential
  future Campus Experts, host GitHub Field Day, and mentor applicants from my region.

GitHub Campus Expert   04/2021 – 08/2023
GitHub
- As the first GitHub Campus Expert in the Philippines, I successfully built diverse and inclusive
  spaces to facilitate learning and collaboration among community members. I shared my
  experiences and led the development of various projects, contributing to a supportive and
  engaged technology community. Also demonstrated Open Source and GitHub technologies by
  leading in-person and online conferences, meetups, and hackathons.

Beta Microsoft Learn Student Ambassador   01/2021 – present
Microsoft
- Demonstrated exceptional event planning and organization skills by successfully hosting an
  educational event focused on Microsoft and GitHub technologies.

Open Source Contributor   10/2020 – present
EddieHub
- Started the idea of EddieHub Open Source Ambassador. Created 3+ value ideas on GitHub
  discussions and was acquired by the community. Shared some ideas to have a long-term
  successful community. Collaborated with the members, joined hackathons with friends, and
  contributed to Open Source Projects. Helped people with their doubts about Open Source and
  careers.

Program Developer   09/2021 – 12/2022
League of Innovative Programmers
- Organized technical & non-technical events at my campus for students. Fostered growth & learning
  through hands-on experience & engaging activities. Provided guidance & support.
