Vincent A. Villafuerte

Open Source Advocate & Developer Relations

vincent.villafuerte1@gmail.com | https://www.linkedin.com/in/vinzvinci | https://github.com/vinzvinci

Work Experience

Program Manager at FRAME00 / Dev Protocol (January 2022 – November 2022)
- Led and managed Open Source Community. Create and oversee community programs and prioritize its impact on the community. I occasionally manage integration and automation in our projects. Enhance community builders and partners program.

Developer Relations at FRAME00 / Dev Protocol (October 2021 – January 2022)
- Providing support, help integrate our partner software, and build a new Open Source Community specifically for the web3 to collaborate in our Open Source Projects.

Developer Relations Intern at FRAME00 / Dev Protocol (July 2021 – Oct 2021)
- Assisted my senior developer relations manager with the project documentation, event program, and writing a technical blog for the web3 community and open source.

Volunteer Experience

GitHub Field Expert
- I belong to the circle of trust of GitHub Education. As GitHub Field Expert, I help select potential future Campus Experts, host GitHub Field Day, and mentor applicants from my region.

GitHub Campus Expert
- As the first GitHub Campus Expert in the Philippines, I strive to build diverse and inclusive spaces to learn skills, share my experiences, and build projects together with my community. Campus Experts can be found across the globe leading in-person and online conferences, meetups, and hackathons, and maintaining open-source projects

Beta Microsoft Learn Student Ambassador
- Organizing event and giving talks about Microsoft / GitHub technologies

EddieHub | Open Source Contributor
- Started the idea of EddieHub Open Source Ambassador / EddieHub Ambassador. Created 3+ value ideas on GitHub discussions and was acquired by the community. Shared some ideas to have a long-term successful community. Collaborate with the members, join hackathons with friends, and contribute to Open Source Projects. Helped people with their doubts about Open Source and careers.

Program Developer at League of Innovative Programmers | DFCAMCLP - Satellite Campus
- Helped create non-technical and technical events for the students.

Public Relations Activities

- **Samsung Open Source Conference (November 26, 2022)**
  I was invited to SOSCONPH and shared my knowledge on Open Source and GitHub.
- **GitHub Field Day Philippines (September 17, 2022)**
  Led and Organized the first regional unconference for leaders of technical student communities in the Philippines at SMX Aura Convention Center.

College Education

DFCAMCLP – Satellite Campus (Expected Graduate July 2023)
Degree: Bachelor of Science in Information System

Community Projects
Founder of WebX DAO
- Managed Open Source Community and Discord Community to support the iteration of new web technologies and collaborate with Open Source Contributors to build web3 projects on GitHub Organization.

Founder of SurPath Hub
- Created and managed a Discord server for continuous conversation with the community, and also created a GitHub Organization to build projects and help members contribute to Open Source.
